

The *Can It!* book is one of the Start-to-Finish Literacy books available from Don Johnston (<http://www.donjohnston.com/>). Each set includes three different books linked to an age-appropriate book. *Can It!* is part of a series on “Recycling – Cash in the Trash.”

This collection of photos shows how each page of the book was adapted to include **tactile symbols**.

In addition to each page being adapted tactilely, we recommend having the tactile symbols on communication cards for the students’ use to communicate their responses to comprehension questions.

The tactile symbols can also be used in the visual mapping or cloze procedures for addressing comprehension before, during, and after reading.

An example of tactile symbol communication cards are shown throughout the photos of this book.

The directions for adapting this book as well as other books from the Start-to-Finish series can be found at this link: <https://www.med.unc.edu/ahs/clds/resources/deaf-blind-model-classroom-resources/tactual-book-kit-directions>.

Don Johnston Incorporated
Volo, Illinois

My name is Eric.
I live in Arizona.
I am 10 years old.

Do you like Coke?

3

I just made \$1000.
Then I gave it away.
You can, too.

2

I don't.

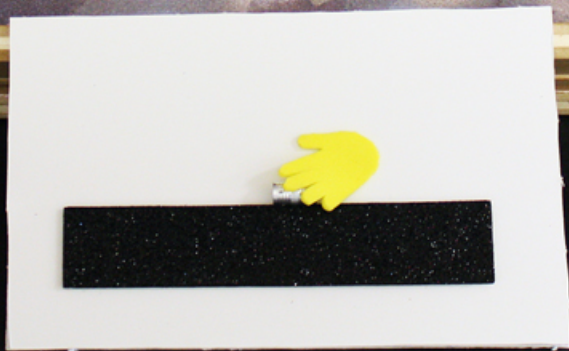

But I like Coke cans.
Here's why.

5

I pick up cans.

I ask people to give me cans.

7

Then I turn the cans into cash.
Big cash. Really big cash.
\$1000 in cash.

Check this out.

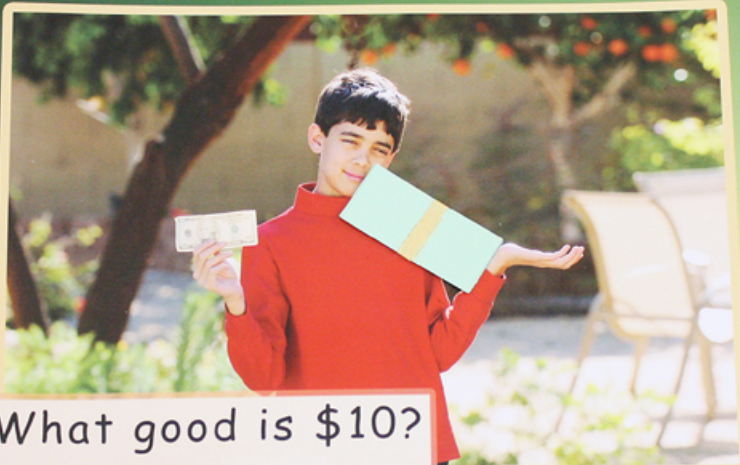

You throw a can away.

I pick it up.

After I pick up 250 cans,
I get \$10.

What good is \$10?
Not much.

11

So I pick up more cans.
Now I have \$100.

What's so good about \$100?

13

You can get four blankets
for \$100. I just gave four
blankets to homeless people.

Then I picked up even
more cans. I got \$200 more.

What's so good about \$200?

16

It will feed a poor
kid for a long time.

I see some sad
stuff going on
around me. So
I'm doing something
about it.

If I can do it, you can, too.
